

# Selective<sup>™</sup> Vet Grant

ADVANCING RABBIT CARE

## APPLICATION GUIDE

### ABOUT THIS GRANT

#### THE VISION

Everything we do at Supreme is inspired by our commitment to rabbit health. Through our Science Selective brand, we want to empower the veterinary profession to bring innovative welfare ideas to life. This £2,000 grant is our way of supporting the practices that go above and beyond.

### WHAT WE ARE LOOKING FOR

A strong application addresses all four of the following pillars:

01

#### IMPACT

How many rabbits will this help, and how significantly?

02

#### FEASIBILITY

Is the project well-planned and achievable within the budget?

03

#### INNOVATION

Are you trying something new or creative?

04

#### SUSTAINABILITY

Will this project continue to benefit rabbits in the long term?

## TIPS FROM THE JUDGES

*Our judges review every application carefully. Here's what makes the difference between a good application and a great one:*

### BE SPECIFIC

Tell us exactly what equipment you'll buy or what the education sessions will look like. The more detail you provide, the more confident we can be in your plan.

### SHOW YOUR PASSION

We want to hear why your team cares about this project. Personal stories and genuine motivation go a long way in making your application stand out.

### INCLUDE PHOTOS

If you're renovating a space, show us the "before" photos! Visual evidence of your current situation and plans helps judges assess the real-world impact of your project.

# £2,000

**Selective Vet Grant** — awarded to a veterinary practice demonstrating outstanding commitment to rabbit welfare.

Applications are assessed on Impact, Feasibility, Innovation, and Sustainability.

## APPLICATION CHECKLIST
